

American School of AI

CERTIFICATION STANDARD V1.0

AI Powered Project Manager (AI-PM)

About this standard

The American School of AI develops and versions the certification standard for this credential. The standard defines the nine domains a certified professional is assessed on. Assessment is a one-day, eight-hour live class delivered by an Authorized Training Provider, plus a capstone project submitted the same day. The credential is issued the same day with a printed Certificate ID and is valid for two years from issue.

Assessed domains

- | | |
|----|-----------------------------------|
| 01 | AI foundations for PMs |
| 02 | AI-powered initiation |
| 03 | Planning and scheduling |
| 04 | Risk management |
| 05 | Agile and hybrid execution |
| 06 | Stakeholder communication |
| 07 | KPI tracking and performance |
| 08 | Governance, ethics and compliance |
| 09 | Capstone scenarios and next steps |

Verification

Every credential carries a Certificate ID printed on the certificate. Confirm any credential at americanschoolofai.com/verify or by email to support@americanschoolofai.com.
